Another ser'ous otubreak is expected at that time.

It had been the intention to have Mrs. Rockhold, who has partially re- many to be a ruse to allow the authorcovered, identify the men yesterday, but such was not the case, and she ty fall at Sutton, six miles away. Comwill hardly see the men till Friday night. Last night it was the opinion of many that Mrs. Rockhold wolad be unable to state positively that the men were the ones who perpetrated the outrage with Charles Lewis, who was shot down Wednesday, when an effort was made to effect his arrest.

Give Their Names.

The men early remained sullen and refused to talk the charge over with any one. Later as evidence of the strong feeling growing against tnem reached their impromptu jail, the town jail having been a few weeks ago burned to the ground, they began to grow uneasy. Both denied their guilt and admitted their identity as Frank and William Johnson. Of the latter the authorities have learned practically nothing, while Frank Johnson, it has developed, resides near Suiton, where he has been a resident for the past three years. His wife visited him yesterday afternoor for a short time.

Never has feeling in all this section been so aroused as it is at present against the two negroes. The townspeople are being augmented by persons from the surrounding country.

The governor arrived in Gassaway

at 7:30 o'clock last evening, and went immediately to the Gassaway hotel. With difficulty enraged citizens were restrained from lynching Johnson and his companion when it became known iste Wednesday night that the two who were thought to be hiding in the mountains, had returned to Gassaway. It was a member of their own race, Abe Ratliff, who betrayed the pair. A posse headed by Chief of Police Charles Lewis, crossed the Elk river and going to Johnson's house found in the Rockhold outrage of Tuesday, both the men they wanted. Neither offered resistance. Threats of lynchwas guarded by State troops. Feel- ing were freely made but the authoriwas being taken to prevent the mob crowd that surrounded the house to let the law take its course. MEETINGS OF CENTRAL CHRIS-TIAN CHURCH ATTRACTING ATTENTION-GLORYING IN THE CROSS SUBJECT TO-NIGHT.

Evangelist Snively preached to a splendid audience last night. Rev. Eddy and Rev. Broomfield took part in the service. Glorying in the Cross will be the subject of the sermon tonight. Mr. Seniff will sing another of his effective solos.

The evangelists and pastor feel that they have a mighty task on hand, but they realize that no movement ever succeeded without a big job on hands. The chief and vital danger in any movement is that its end may become smothered in its means. It must have a great, challenging, sacrificial task. banquet is a good thing as a springboard, but not as a couch. As a church of Christian men and women we need a master passion for souls. The Christian whose sense of responsibility goes no farther than his own soul has not advanced beyond the incubator stage of Christian life. Goo's call is a call not only for volunteers, but for recruiting officers. It is also a call to help unite the scattered regiments of the great army of our Immortal King under the one banner that bears the Cross. "Christian unity must come at the foot of the cross." In these days the church is under fire as never before and only by a union of the various denominational regi-

ments will the church be ready and able to meet these attacks upon her. At this very time the magazines are spending their muck-raking activities on the churches. It is charged that the churches are doing nothing to meet the great scoial needs of to-day. But the fact is that nearly all of the real philanthropic work of our times is being done by professed Christians, even though they are working in so called secular organizations. Many organizations that the man of the market and the street calls secular, such as the Y. M. C. A. and Social Settlements and are in reality the churches organized to work at a spe-

For this scepticism and doubt the church, in the past has been largely to blame. By her bitter controversies, bloody persecutions, intolerant spirit and manifold divisions she has forfeited the confidence and to a great extent lost the respect of the masses.
